Project Design Phase-I
Solution Architecture

Date	03 November 2023
Team ID	NM2023TMID4205
Project Name	Creating Blog using Wordpress Platform
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture bridges business challenges and tech solutions. It defines software structure, features, and requirements, guiding development and enhancing operations through technology.

- Tech Solutions for Business Challenges: Solution architecture identifies and implements technology solutions to address business problems within the bike company.

- Software Structure and Characteristics: It describes the structure and behavior of software applications, ensuring a comprehensive understanding for stakeholders.

- Feature Definition and Phases: Solution architecture outlines necessary software features and development phases to systematically achieve desired solutions.

- Solution Requirements: It specifies the exact requirements for technology solutions, serving as the foundation for development and alignment with business objectives.
